Education

Vellore Institute of Technology
Dual Degree(B.TECH+M.TECH) (GPA: 8.69)
AP Board
XII (Marks: 967)

June 2021- May 2026
Amaravati, Andhra Pradesh
June 2019 - May 2021
Ongole, Andhra Pradesh

Work Experience

HR Labs June 2024 – July 2024
Frontend Development Intern *Remote*

- I have part of the team in creating the company's website using React and Bootstrap, ensuring it was both dynamic and responsive.
- Ensured that the website was fully responsive and optimized for various screen sizes, from desktops to mobile devices .
- Gained valuable hands-on experience in front-end development and learned a lot about industry standard methods

Projects

Weather App | *React.js, Open weather api, TailwindCSS* weatherapp.com

- Developed a user-friendly weather application using React, leveraging modern frontend techniques to create a dynamic and responsive interface.
- Implemented features such as real-time temperature display, city search functionality, and intuitive user interaction and the background image change according to temperature.
- Integrated OpenWeather API to fetch current weather data for cities worldwide, demonstrating proficiency in API usage and data handling.

Expense Tracker | *React.js, LocalStorage, HTML, TailwindCSS* expensetracker.com

- Developed a user friendly expense tracker using React ad TailwindCSS which helps to track your expenses .
- Implemented Local Storage to ensure that users data is stored locally on their devices, without the need of backend to store the data .
- Ensured the application is fully responsive, providing a consistent experience across desktops, tablets, and mobile devices .

Todo App | *React.js, ContextAPI, HTML, TailwindCSS*

- Built a todo app using React and Context API, enabling seamless task management with features like add, edit, delete, and mark completed.
- Implemented local storage functionality for data persistence, ensuring users can access their tasks across sessions without losing data.
